## Fertility Nursing and responsibilities- Sally Mugabe Hospital Harare, Zimbabwe

By  
Tinotenda Manyere

### Methods

- ☐ Face to face
- ☐ Virtual

### Benefits

- ☐ A total of 42 Healthcare staff benefitted from this training
- ☐ Healthcare staff- an introduction of fertility nursing was the major benefit.
- ☐ Community- a public fertility clinic was reopened after being closed for more than 10 years because of lack of the fertility knowledge, skills and expertise.
- ☐ So far 264 patients has been seen and we have 7 pregnancies.

### Conclusion

- ☐ This was and still is a life changing benefit.
- ☐ Psychosocial stigma associated with infertility issues is being addressed
- ☐ Access to fertility treatment is now for everyone including those who could not afford as this was a privatised facility thus limiting the ordinary person to have it.
